A national data flow (NDF) and reporting mechanism of the SDG indicators guided by the global data flow is currently being developed by the PSA and the SDGFP;

Data source agencies are enjoined to provide relevant data/information and metadata for each of the SDG indicators with the data disaggregation needed to their respective PSA SDG Team sector specialist for validation;
II. Philippine SDG Data Flow

DRAFT Philippine SDG Data Flow

- If data is available but not yet in indicator form, PSA SDG Team Sector Specialist will process the data to generate the SDG indicator using the submitted input data.

- There should be a note in the metadata that the indicator was a special tabulation made by the PSA using the data inputs provided by the data source agency;
If data provided has methodological issues, the PSA SDG Team sector specialist will coordinate with the relevant interagency Committee (IAC) for review and discussion, the proposed methodology will then be recommended to the PSA Board for approval if needed;

PSA SDG Team Overall Coordinator will compute for the measures of progress and update the data in the SDG Watch and the SDG Database.
Considering the various data collection calendar of the custodian agencies and that the SDG Watch is only updated annually, the Philippine SDG Focal Persons may coordinate directly with the custodian agencies on the provision of latest SDG-related data and other methodological developments.

However, the concerned PSA SDG sector specialist should be copied in the submission of any information related to SDG indicators for proper documentation.
