Content

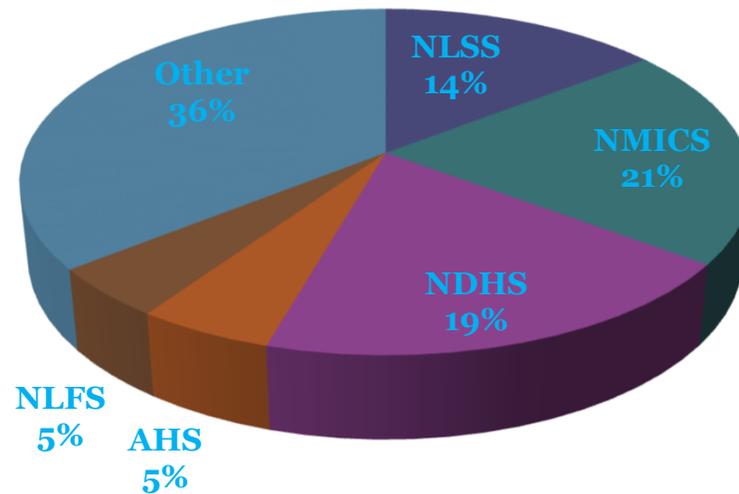

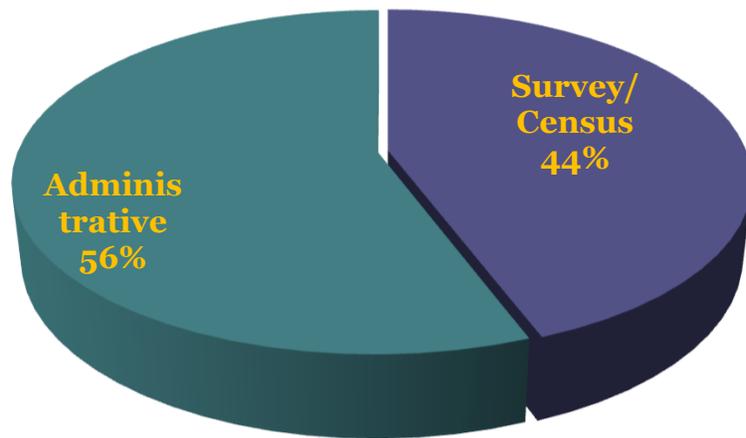

- Background
- Access and Use
- Key Issues and Challenges
- Opportunities

Background

- Joined UN in 1950s
- Committed to pursuing and achieving by 2030
- Commitment reflected in constitution, periodic plan and annual budget
- Designated agency- National Planning Commission
- Capture the spirit of “no one left behind”

Access and Use

Data Sources for Tracking Progress on the SDGs

Source: NPC

Issues and Challenges

- Gap- indicators
- Lack qualitative information
- Mobilize domestic resources
- Major surveys financed by donors - delays
- Disaggregation
- Disparity in data
- Availability/dissemination
- Standardization

Opportunities

- Federalism – constitution, act
- Innovation in data collection techniques
- International comparable
- Multi-topic and integrated
- Administrative records as alternative
- Dissemination
- Legal, organizational and operational changes in place

Thank You
